PERSONAL PROJECTS

IONIC FRAMEWORK DEVELOPMENT Dec 2017 – Present

Personal experimentation with Angular.js and the Ionic Framework to create the front-end of cross platform web apps using Typescript, Sass, and HTML5

PICKUP Sep 2017 - Present

Building a startup app on a team of 5 using React.js designed to help commuting students carpool more easily

NATOUR Sep 2017

Mobile application for iOS and Android, developed at PenApps Hackathon at UPenn, that allows the user to take a picture of an animal/insect and have relevant information about the species displayed

I implemented the Wolfram Alpha API to retrieve species data on what the camera was processing

WORK EXPERIENCE

AWAKE CHOCOLATE | CAMPUS MANAGER

November 2016 – Present | Hamilton, ON

- Increased on-campus sales through distribution of chocolate samples
- Managed branded social media accounts to engage students
- Promoted the AWAKE brand on McMaster's campus through swag distribution
- Took initiative in reaching out to on-campus retail managers to ensure sufficient stock & address availability concerns

CITY OF BARRIE | IT SERVICE DESK CO-OP STUDENT

May 2017 - August 2017 | Barrie, ON

- Initiated successful computer builds and user state migrations
- Assisted with the deployment of over 1000 computers across the corporation
- Utilized excellent communication skills to answer calls and work with users to solve IT problems

TREK BICYCLE STORE | SOCIAL MEDIA MANAGER & SALES REP

Jan 2013 – May 2013 | Palo Alto, CA & Ithaca, NY

- Curated engaging, branded social posts for a variety of platforms
- Promoted in-store sales and discounts
